

Abstract

Title:

History of Pilsner football

Objectives:

The aim of this thesis is a comprehensive survey of Pilsner football on the basis of matching available information. Mention what were the origins, appearance and conditions for the development of the sport in Pilsen. As the sport continued to widen, and what were the relationships between the clubs and the impact on society. We also focus more closely on the two most successful clubs. In this work were used standard historical method, particularly the method of induction and deduction, direct, indirect and progressive, as well as analysis and synthesis.

Key words:
